**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I have chosen a competitive provider because my previous providers (all very big) provided poor service yet their cost kept going up fast each year. Im an online student & full time worker. I stay late in the night doing my studies & assignments. But thats when these big guys either cut down on the speed or turn off service. I have made several calls to complain about this but it seemed they didnt care.

Thats why I decided to go with a small community provider who is able to offer faster internet with fiber optics at a competitive rate.

We want small & fiber optics providers around always to deliver competitive alternative to the big guys. This is also good for the antitrust laws.

I will always want & choose my community provider, Sonic, over the big, expensive but non-performing guys.

Long live competitive providers, long live antitrust law & long live fiber optics internet providers.
